STANDARD OPERATING PROCEDURES

Employee Offboarding & IT Asset Recovery SOP

Separation Workflows, SCIM Access Revocation, Hardware Recovery, and Handover

Classification: Internal **Version:** 3.8 **Owner:** People Operations & IT Security **Review Cycle:** Annual

1. Purpose and Scope

This SOP establishes the operational procedures for managing voluntary and involuntary departures at Apex Global Technologies. The primary objective is to safeguard corporate assets, protect intellectual property, ensure compliance with data privacy regulations, and facilitate a professional transition.

2. Offboarding Timelines and Departmental Notifications

- **Voluntary Resignations:** Employee submits formal resignation in BambooHR with a minimum of two (2) weeks notice. People Operations automatically initiates the offboarding workflow notifying the Manager, IT Support, Security, and Payroll.
- **Involuntary Separations:** People Operations and Legal coordinate directly with IT Security to execute real-time access revocation precisely at the conclusion of the separation meeting.

3. Automated IT Access Revocation Protocol

System	Action Performed	Execution Timing
Okta SSO Master	Deactivate account; revoke all active sessions.	17:00 local time on final day (immediate for involuntary).
Google Workspace	Suspend login; configure email forward to Manager; transfer Drive files.	Immediately upon Okta deactivation.
GitHub Enterprise	Remove from organization and revoke SSH/GPG keys.	Automated via SCIM connector.
AWS & Infrastructure	Revoke IAM role assignments, VPN certificates, and SSH bastions.	Automated via Terraform / Okta sync.

4. Physical Hardware Recovery and Knowledge Transfer

- **Asset Return:** Laptops (MacBook Pro / ThinkPad), YubiKeys, monitors, and building access badges must be returned to IT Support within five (5) business days. Remote employees receive a prepaid, insured FedEx shipping container.
- **Knowledge Transfer Sign-off:** The departing employee and manager must complete and sign the *Handover Matrix* documenting in-flight projects, credentials, and open Jira issues.
- **Final Settlement:** Payroll processes statutory final pay and accrued unused PTO within jurisdictional deadlines following asset recovery verification.
